

A thought of the day in passing . . .

A Million People – A Million Different Enlightenments

Just as we are both same and unique versions of an I in our ego-self, so too will we be both One and the same, yet unique, in our lives in Enlightenment.

Further, we will have different goals of Enlightenment. The primary ones being:

Divine Union and Atonement

Perfected Human Be-ing

Awake - and in some manner and degree finished with human be-ing.

People seek and attain different levels of opening, completion and expression of Enlightenment.
