

## *A thought of the day in passing . . .*

Utopian societies are modeled on life in our ultimate reality where we are ONE.  
Democracy, Socialism, Marxism are striving for some variation on this end.  
And such is an admirable goal.

However . . . societies are *only* as enlightened and pure as the individuals therein.  
Most particularly - their leaders!  
You can't get there from here.

Their usual results - a new tyranny of power; equal poverty for the people, the wealth for them.  
As greed takes over and history shows, power and corruption just changes hands.  
Communism being an obvious example of this end.

Best first to, *enlighten the individuals*, educate to make them self reliant, ethical and strong.  
Prosperity, born of worthy work and character, will follow.  
And utopia; in its own perfect time, eventually will come.

## ENLIGHTENMENT

---

The book; ENLIGHTENMENT, will be reprinted page by page daily on this site free and in full. For the less patient, the book may be purchased in full from Bookstore.

## ENLIGHTENMENT

*by Tara*

*There is our 'Ultimate Reality' and there is our 'limited reality'.  
The trouble with Ultimate Reality is; it's just so hard to grasp onto.  
The trouble with limited reality is, its so, well -- limited!*

### ULTIMATE AND RELATIVE REALITY

The whole and part  
Wave and particle

Who and what we are.  
We live them simultaneously

Our Godself/Individuality

To be understood  
Each with different laws

As night and day  
Two sides to a coin;

Perhaps best lived, and talked about,  
One at a time.
